

Dear Julie,

21/5/01

Writing on a very windy, dreary day - late Autumn. The real cold hasn't arrived yet but the mice are moving indoors already! caught a little blighter not $\frac{1}{2}$ hour ago. I was sitting quietly reading notes in my den & he calmly wanders in & gets behind my desk - I quickly nipped out & got a mouse trap (a new way to set plastic job) loaded it with peanut butter & put by the desk - I reckon it only took $\frac{1}{2}$ a minute for him to smell the P/butter & oplat he was done for! Saw neighbour's cat with one in his mouth this Am. - going home from under our back decking!

Anyhow I did some searching re James & Elizabeth re compiler news of last newsletter. 58. & I think I have found them. as per enclosed.

Also readers letter from morn. paper.

I had a long letter from Stephen of
Buckhurst giving me details of a new
member, Iris Trumbley who seems to
have laid claim to William eldest
son of Stephen & Hannah. William
b 1808, as you see was Clarinda
Smith. I really cant follow his working,
but I'm sure he is not right. Not having
seen Iris's letter cant be sure what has
prompted his searching. Anyhow I enclose
William's family if Iris is in
touch with you. Would dearly love
to sort out the Oakley families but
is so hard from here & also they all
named their children the same
bunch of names - no one thought much
of second christen names either.

I'm in the process of typing up all
the names connected to us, the
Silchester bunch, that I know of.

Would you like a copy when I
am done? Jim's CD Rom's have
been so very interesting highlighting
life in Silchester - pity I havent
a computer - I borrow ~~use~~ use of one

Just not so convenient when there
is a 'talking' passage.

I see Stephen has sent you a
copy of his letter. He is really
way out. I'll need to send him
a copy of my 'family' to.

Well lunch time has arrived so
will close.

Thanking you.

Pat Bisset.

cant see how Iris can claim this gent!
